**Subject:** Objection for 400 new houses for Pyrford

I absolutely object to the building of 400 new houses in this area. Primarily what started of as a small village has expanded to almost merge with West Byfleet & surrounding villages, losing the attractions of a small quiet area, it has totally lost its identity; being prime Green Belt I think it should be kept that way for ecological and environmental reasons, not to mention the possible destruction of natural habitat for local wildlife and birds. Local infrastructure cannot support the added population described by 400 houses, and the subsequent traffic congestion, noise, pollution, disruption etc would be a disaster on our already overcrowded narrow roads. Local transport on buses is limited to one bus every hour. It does not compute to encroach upon this land to build and totally destroy its character. Find some place else that is derelict and more suitable for construction. I have lived in this area for over 30 years and any further overcrowding would be detrimental to this peaceful area, resulting in some people wanting to move.

Thank you for your attention.

M. Santos Pyrford resident.
