Your views on the Site Allocations document

This section is for providing comments regarding the Draft Site Allocations DPD. Please provide as much detail as possible, for example the page or paragraph numbers to which your comment relates and explain any changes you consider should be made to the document.

This section can also be used to suggest a new potential development site to the Council (please state the full site address and contact details for the landowner(s) in your comments).

Please give us your comment	I, and my Party are totally opposed to building on the green belt and believe that there should be more use made of brownfield sites.

Proposed modifications - Please explain what changes you consider should be made (for example, to the text, to the site boundary)

Sustainability Appraisal Report

Sustainability Appraisal has been undertaken to consider the likely significant effects that the draft Site Allocations development plan document (DPD) might have on the Borough in environmental, economic and social terms.

Please explain your comments

I, and my party, believe that the number of proposed developments on green belt is wholly unsustainable and that insufficient consideration has been made on the effects they will have on the current residents of Woking. Scrap the whole lot and reconsider with more thought on improving the current stock of housing.

Proposed modifications - please explain what changes you consider should be made, if any

Habitat Regulations Assessment (HRA)

A Habitat Regulations Assessment (HRA) was undertaken to consider the likely significant effects that the draft Site Allocations development plan document (DPD) might have on European designated habitats

Please give us your comments

I, and my party, do not consider that the EU should have any say whatever in what happens in Britain. The EU do not give a thought for the sustainability of wildlife habitats and from personal experience some of the proposed development sites are home to protected species.

Proposed modifications - please explain what changes you consider should be made, if any

Scrap the lot and reconsider more carefully

General comment or suggest a new site

This section is for general comment not covered by the previous pages.

Any other comments

It is understood that much of the reason for designating these sites is due to influence from the EU. As we have been promised a referendum on our continued membership of the EU by the end of 2017 I would suggest that all consideration of the release of these sites of green belt land should be with held until after the result of that referendum. If the common man and woman vote to leave the EU then there is no further need for these extensive developments.
