**Subject:** PYRFORD - PROPOSED NEW HOUSES [ UPSHOT LANE AREA ]

Jeni Jackson  
Head of Planning,  
Woking Borough Council

I would like to object to the above proposed development .

1. Traffic congestion will be dramatically increased resulting in extra pollution & possible road gridlock .

Pyrford will become a " rat run " if the Wisley air field housing development is granted.

This will exacerbate further the problem .

2. It is important to preserve green field sites .

Under the proposed development the fields would be lost forever for present & future generations .

3. The development is considered inappropriate, high density & will detract & harm the character of the Pyrford environment .

4. Such large scale housing will adversely affect the complete infrastructure - schooling / utilities etc .

In order to preserve the Pyrford green fields it is proposed the houses are built on a more suitable brown field site .
