Subject: Objection against 400+ new houses in Pyrford

Dear Jani

I don't normally get too involved in issues around the community but the latest plans from Woking Council are beyond madness. I have children at Pyrford school and Pyrford nursery, both are completely oversubscribed with no let up in the numbers that continue to rise naturally. The secondary school can not possibly take any more either. Car parking around the school and nursery is an absolute nightmare, we have already had one major road incident this year where a child got knocked over. It is not only the nursery, schools, parking but what about doctors surgery, dentist etc etc..the list goes on. Waiting times for a doctors appointment at the local GP is already 2 weeks.

Put simply I am totally opposed to these plans as Pyrford is a small village which simply does not have the infrastructure to support 400+ new homes, the 800 children and additional 800 cars.

The local Government has got to start thinking about the amenities and not just housing. It is a ridiculous proposal, ill thought out and certainly anyone who would agree a plan like this has not been on coldharbour road at 8.45am in the morning.

I Object fully as does my husband.
