Please give us your comment	I am aware that new housing for people is needed but I am concerned about the following issues which i think need to be taken into account and addressed. A disruption to local life and increase in traffic coming into the estate while building work is happening and after due to more people living here. The junctions coming into the estate are already a danger and would need to be improved by putting in mini roundabouts on both entrances. The roads are narrow and will cause more problems for an already busy estate. The lack of amenities already here as the local shop has closed down. Also if more children are coming into the area the lack of play area for them. An increase in teenage children again with nothing for them to do or go will cause them to be hanging around the streets which has been a problem in the past which

we have over come, but is likely to come back.
To consider any wild life here as there are many big old tress which may be an home for them, as well as considering the trees.

Proposed modifications - Please explain what changes you consider should be made (for example, to the text, to the site boundary)

I feel that areas that are not causing havoc to an already busy estate should be considered first such as industrial estates.

Please give us your comments

I am concerned about the impact this proposal will have on the quality of life it will have for the existing people already living here due to the disruption it will cause. Also the area is very green with big old tress which will be a home for lots of wild life.
