Parcel 20, site references GB8, GB9, GB10, GB11 and GB14

I have lived in Mayford for 25 years but first moved into the borough of Woking in 1970. **I am opposed to the development of Parcel 20.** The land fulfils the purposes of Green Belt and keeps the identity of Mayford village separate from the town of Woking. The PBA report has not produced evidence to support its conclusion to develop Parcel 20. It appears that WBC decided to develop Parcel 20 on the basis of the will of landowners and commissioned a development consultant to provide justification. This has led to a wrong conclusion and means that WBC has failed to look seriously at better planning options.
