**To:** Planning Policy

Dear Sirs,

I wish to object to the plans to release Green Belt land for development in the Byfleet area for the following reasons.

- 1) To support any development, the infrastructure of the village would have to have a major upgrade. The drainage system, both foul & surface water, together with the roads is inadequate.
- 2) The main road system linking the village to major highways is already often gridlocked without the possibility of improvement.
- 3) The area is already subject to flooding which will only be made worse with any development on areas of flood plain
- 4) The areas being considered for development are on green belt when brown land areas appear to have been ignored.

Yours faithfully

John Stuart  
62 Church Road,  
Byfleet
