Dear Ms Jackson

I am writing to object to the proposal to built an additional 433 houses in Pyrford.

Pyrford is a very charming and peaceful place to live, with beautiful views and natural landscape. It is one of very few areas around Woking with unspoilt countryside. My family chose to live here back in the 80s and I lived here as a child. I have only recently moved back and it is still a beautiful place to live.

The new houses will have a major effect on the local road infrastructure, as the roads here and in the surrounding areas are already congested, the congestion would only increase with these proposed new houses and perhaps result in gridlock. The country lanes close to me were not designed to take the current traffic load, which again would increase massively. Also I think about the ecological impact and the effect building on these fields will have on our wildlife, who have made Pyrford their home.

Please help to keep Pyrford a green and pleasant village.

Kind regards

Louise Toms
