Dear Planners,

This email is to let you know that Amanda and Piero Tumini are against the plans to build new house on the green belt. This area is already extremely congested. The traffic along this road gets jammed most mornings during the school run. Also the area is not set up for all the new homes. There would not be enough space for parking at local shops, doctors etc where we already struggle to park. I do hope you listen to all the objections. Thank you Amanda & Piero Tumini
