Good progressive plan for the Borough.

I would like to see more thought put into the asset of our canal and may be leisure and waterside restaurants linking with the town... canal dull from WWF to the Goldsworth Road industrial units. This area could be optimised, even as a nature area...

I also believe that Woking station could become an asset to the town, by revolutionising the station and including it in a shopping Mall and business centre with escalators, stairs, travelators and lifts linking the town, station, theatres and even the canal.
We are linked to Heathrow and London so well. This would link the foot fall together from both sides of the town.

We also need another road crossing the railway track in the near centre of Woking.

I also believe that if the town expands then St Peters is not a good sight for a Hospital, it needs to be closer to Woking to be efficiently staffed and state of the art... This could be done within easy access of the town travel hub.

Proposed modifications - Please explain what changes you consider should be made (for example, to the text, to the site boundary)

Please see above for general ideas on future plans. Thank you. I accept that this is about the PDF plans document, but I am giving ideas for the future.
