The thought of releasing GREEN BELT land within the Byfleet area is indescribable, the A245 is already gridlocked with traffic without building any more houses or businesses within its proximity. Surely the you need to rectifying the current failing infrastructure before stretching it to cope with further houses etc

There is other land available, Green belt should be preserved in Byfleet, what about looking at the Green Belt land in Woking!!

Also the area you are proposing has already been flooded or is in danger of flooding.

Perhaps you should also take notice of the Byfleet petition regarding this matter with 2000 names plus on it

Kind regards

Susan Webb
