Your views on the Site Allocations document

This section is for providing comments regarding the Draft Site Allocations DPD. Please provide as much detail as possible, for example the page or paragraph numbers to which your comment relates and explain any changes you consider should be made to the document.

This section can also be used to suggest a new potential development site to the Council (please state the full site address and contact details for the landowner(s) in your comments).

Site allocations	Site GB13 Land E of Upshot Lane Pyrford
Would you like to	Objecting
Please give us your comment	The use of greenbelt land for building dwellings contravenes its purpose in terms of preventing urban sprawl and preserving historic heath and woodland and ancient byways. In addition, the road infrastructure is insufficient to cope with the addition of a possible 800 - 1000 cars. There are no school places in the area; insufficient amenities in terms of medical care and public transport make this a poor choice.
Proposed modifications - Please explain what changes you consider should be made (for example, to the text, to the site boundary)	This site should not be used as its use contravenes the council's own recommendations on taking this site for development as well failing to meet the strict guidance in place regarding the allocation of green belt land for building purposes.

General comment or suggest a new site

This section is for general comment not covered by the previous pages.

Any other comments

There is no evidence base for taking this parcel of land out of the Greenbelt allocation and there is no reference to the parcel of land (GB 12 & 13) having an up to date survey of its cultural heritage value nor the value of its soil. In addition there has been no detailed reference to alternative sites to indicate why this parcel of land is essential to the housing needs of residents in Woking Borough. There is not enough evidence to support the change in the green belt boundaries nor is there enough evidence of a thorough survey of the impact of the development on the local community, environment, infrastructure and services.
