Dear Sir/Madam,

With reference to the GB10 building proposal on the green belt land opposite Saunders Lane, I have lived here all my life and hope to enjoy the natural beauty that makes this small village special for many more years to come. We do not have the infrastructure to support such a large housing proposal, the roads are already very busy, especially during rush hour, with some very narrow sections of road where 2 cars already struggle to pass.

As has recently been announced by this government, green belt will still be protected and it is important it stays that way. So I would hope in this case and the others proposed around Mayford (GB7/8/9) that promise will be honoured. I know housing is at a premium, but once green belt areas are built upon, then it is lost forever. And what gives these areas character and makes them special will also be gone, turning all villages/towns into soulless clones. Not really a legacy I'd be proud of.

I do hope the right decision is made, and that our wonderful green and pleasant land can be preserved for generations to come.

Yours faithfully,

Andrew Whittle
