

Site Allocations DPD consultation online questionnaire.

About This Form

This is the online form which you can use to give us your comments on the draft Site Allocations development plan document (DPD). The public consultation documents are available at [Woking2027 website](#).

The public consultation is open from **Thursday 18 June to Friday 31 July 2015**. Unfortunately we cannot accept responses received after 5pm on the closing date.

You can let us have your comments in a number of ways:

- 1. Use this online questionnaire – instructions are set out below.
- 2. Complete a downloadable / printable questionnaire and return this either by email to planning.policy@woking.gov.uk or by post to the Planning Policy team, Woking Borough Council, Civic Offices, Gloucester Square, Woking, Surrey, GU21 6YL.
- 3. Complete the comments form accompanying the online Site Allocations interactive map (see www.woking2027.info).
- 4. You can also register your comments with the Planning Policy Team at one of our public consultation events (see www.woking2027.info)

If you have any questions about completing this form please contact the Planning Policy team by email on planning.policy@woking.gov.uk or telephone on 01483 743871.

Mandatory Fields

This questionnaire will ask you for your views on the various consultation documents: the draft Site Allocations document, the Sustainability Appraisal and the Habitats Regulations Assessment. If you have no comments on any one of these, simply choose 'next' to move to the next page of the questionnaire.

You can also suggest a new potential development site or make a general comment (not specific to any one of the consultation documents).

Some fields are mandatory, so must be completed. They are marked with a red asterisk.

Please note we are unable to accept anonymous responses.

You must complete all the form in one session, no information will be saved. If a form is half completed and closed, you will need to start again.

Data Protection

Please be aware that representations received by the Council will be made publicly available.

The Council may also use this information within the Council to exercise functions of a public nature in the public interest.

Your views on the Site Allocations document

This section is for providing comments regarding the Draft Site Allocations DPD. Please provide as much detail as possible, for example the page or paragraph numbers to which your comment relates and explain any changes you consider should be made to the document.

This section can also be used to suggest a new potential development site to the Council (please state the full site address and contact details for the landowner(s) in your comments).

Site allocations	Site GB14 Land adj Hook Hill Lane Hook Heath
Would you like to	Objecting
Please give us your comment	I strongly object to changing the green belt status of land adjacent to Hook Hill Lane. Without development currently planned, there is no reason for changing the status of this land. People pass this land on the train quickly after leaving Woking and it helps give the town the impression of a good size down, surrounded by green space. Any development of this area, and Woking may as well become like Zone 3 in London.
	The single lane bridge cannot cope with increased traffic to Hook Hill Lane, and any high density housing developers would ultimately be looking to cram into the existing fields would be out of character with the surrounds, and blighted for any new residents with frequent rail traffic. The current greenery absorbs the sound of the busy Portsmouth to London railway line.
	I grew up in Woking, and after years at university and working in London, chose to return to the same area -

attracted by a convenient market town, with proximity to London, balanced with greenery and attractive open space that can be enjoyed by the people - old and young alike living in the area. The development plans appear to have been designed from a computer terminal, looking for the closest green space to Woking town centre. They have little consideration for the environment or green space that has attracted people to this area in the first place. People from all over the world have moved to this area, and appreciate the surrounds of Woking for the space and countryside that can be enjoyed. This plan, and other plans in the Mayford/Hook Heath would take all this away with high density housing that is not aligned to the existing dwellings.

The pressure to meet Government targets, and yield to developer pressure runs the risk of changing this area irrevocably. This pressure will turn Woking into a forgettable, sprawling urban connotation in SE England - blighted by terrible traffic, and a paucity of green space to enjoy either aesthetically or for recreation.

Keep land status unchanged and preserve the natural

Site GB10 Land NE of Saunders Lane Mayford

Objecting

I strongly object to loss of the green area in NE of Saunders Lane. The meadow and field area NE of Saunders Lane has provided many generations with a beautiful green space for 60+ years. Dog walkers, horse riders, cyclist, walkers, runners, children, nature enthusiasts all enjoy recreation across the Hook Heath ridge, fields and Saunders Lane - Hook Heath bridleway. Surrounded by already by houses from all sides the meadow and fields are a fantastic illustration of English and Surrey countryside at its best. Having backed on to the fields for 10 years from Ridge Close, I see firsthand the joy the space gives to many people of all ages - children to adults - throughout the year and changing seasons.

Giving this space away and turning it into just another block of housing will ruin the area and continue the depressing trend in the UK whereby green space close to towns is ever harder to come by. The space is not exclusive to people living locally - people and families from come from miles around (Mayford, Pyrford, Old Woking, Worplesdon, Sutton Green, Hook Heath, Central Working, Knaphill) to use the space for leisurely recreation. Green space, fresh air, exercise. A lot of people who use this space currently have no carbon footprint in getting there. In the proposed development plans, these people will need to get in their cars, and drive further afield to green spaces. More traffic, more pollution, more inactive people not getting enough exercise. Additionally, Saunders Lane cannot cope with the traffic and the increased traffic volume is grossly unfair to the residents already living in Saunders Lanes, many who are in houses built very close to the road and would suddenly be looking on substantial traffic.

We enjoy wonderful peace and tranquility in the area currently - crammed suburban housing complexes will change the feel and environment considerably. Currently, when people or friends come to visit from overseas, they leave impressed by Woking for the space it offers and beautiful surrounds. Take this away and many of us will look to follow these people and take our trades overseas to countries that can still offer good living close to green and spacious surrounds. We were attracted to the area

by greenery and space. Had we wanted dense suburbia, we would have chosen to live inside the M25. -

Leave status unchanged and look further afield to avoid congested traffic throughout the area.

Site GB11 Land NW of Saunders Lane Mayford

Nothing selected

Per comments on NE development, Saunders Lane residents would suffer hugely. Families, walkers, dog walkers alike would all suffer. The area would lose green beauty and nature at the expense of sprawling housing.

Proposed modifications - Please explain what changes you consider should be made (for example, to the text, the site boundary)

The road network cannot cope. If wanting to do something useful with the land, make it into an open recreational space where people can picnic and play. This could then benefit people from further afield in the same way the playground and park at Mayford Village Hall does.

Please give us your comments

A number of very valid points are made that demonstrate a clear disruption and loss of wildlife, and deterioration in air quality caused by traffic pollution in the proposed developments in GB10, GB11 AND GB14. The current proposed plans are not compatible with the required standards set out.

Proposed modifications - please explain what changes you consider should be made, if any

General comment or suggest a new site

This section is for general comment not covered by the previous pages.

Any other comments

Appreciate the transparency in the whole process. but in summary as a resident of Hook Heath I am writing to register my objection to the removal of areas GB10, GB11 and GB14 from the Green Belt and to proposals to build houses on parcels GB10 and GB11 post 2027.

The loss of green space and urban sprawl would be

devastating to the area and provide the council with a whole new set of challenges more akin to the Surbiton/Kingston area (traffic congestion, pollution, social friction and disorder) that will come as a result of having too many houses in close proximity with inadequate road infrastructure, and a lack of open space for people to enjoy.

Thank you for taking the time to respond.

You have reached the end of this questionnaire. Please ensure that you have completed all the relevant fields.

If you wish to review all the information you have supplied click on the **Review** button.

If you wish to change some of the information you have entered click on the **Previous** button to get back to the relevant page.

If you wish to discard the information you have entered click on the **Cancel** button.

When you are happy with the information you have supplied click on the **Submit** button.

What will happen next?

When you click the submit button, the information you have provided will be submitted to the Council as a formal response to the consultation. A copy will also be sent to the email address you have provided, for your records. Please note that responses will not be individually acknowledged.

After 5pm on 31 July 2015, all of the responses will be analysed. We will compile the results of the consultation and will update the Site Allocations document before asking for your views again. After that, the final Site Allocations document will be submitted to the Government for its consideration at an independent Examination.

The Council provides updates on the progress of this and other planning policy documents to those who have responded to a previous consultation and /or have expressed an interest to be kept informed. We also keep our local plan website [Woking2027](#) up to date with the latest information.
