Site Allocations DPD- Green Belt Release Planning Proposals - Byfleet.

I wish to register my strong objection to proposed development of the last remaining Green Belt land in my village of Byfleet. Some of my reasons for objection are :

As mentioned, most of Byfleet has been built on already and it has become a concrete jungle.

The roads are already congested, the proposal will make it even worse. The A245 can be a nightmare at times.

Woking has much more Green Belt so why not develop more there. Perhaps the more well-heeled residents would be able to oppose the Planning department more effectively?

The Green Belt in Byfleet (or what is left) must be protected as once it has gone it is gone. The Council appears to ignore the huge opposition in Byfleet to this proposal.

Regards
